GEAR UP.**

# WARM UP<sup>®</sup> DRINK UP. GEAR UP.

**Warm Up, Stretch and Cool down :-** Warm up with a brisk walk or slow jog for 2-3 minutes, stretch your major muscle groups followed by warm up drills specific to your sport or physical activity. Cool down after training or competition with a light jog or walk and then stretch to help your muscles recover.

**Drink Up before, during and after sport or physical activity :-** Aim to drink a couple of glasses of water or weak cordial before a game or training, then top up every 20 minutes during play. Drink at least a couple more glasses when it's over. Don't wait to feel thirsty before you drink.

**Gear Up :-** Protective equipment appropriate to your sport or physical activity should be worn at all times (training and games). It should fit correctly taking into consideration the size and age of the participant. It's important to regularly check and maintain protective equipment.
